Corporate logo specifications

Color: The preferred use for the logo is the 2-color version. When circumstances prohibit this, it may be used in all black or reversed to white.

Clear space: Use of the clear space maintains focus on, and the integrity of, the corporate logos.

SCALED AGILE®

2-color

SCALED AGILE®

1-color (Black)

SCALED AGILE®

1-color (Reversed to white)

Note that the 1-color version has a modified treatment of the integrated logo mark, which does not overlap the logotype. This treatment should not be altered.
